EDUCATION

University of Cambridge (current)
MASt in Mathematics (Master of Advanced Study, part III of the Mathematical Tripos)
Oct 2024 – Jun 2025

ETH Zürich
Exchange studies in Mathematics at Master's level
Sep 2023 – Mar 2024

KTH Royal Institute of Technology
BSc in Engineering Mathematics, grade 4.9/5
Aug 2020 – Jun 2023
Started MSc in Applied Mathematics.
Aug 2023 – Jun 2024

Norra Real
Secondary School: natural sciences with a mathematical profile, grade: 22.5/22.5
Aug 2017 – Jun 2020

Deutsche Schule Stockholm
Primary education
Aug 2007 – Jun 2017

EXPERIENCE

Skandinaviska Enskilda Banken (SEB)
Quantitative Analyst Intern, FX Trading — Jun 2024 – Aug 2024
Quantitative research and analysis regarding the price discovery process in foreign exchange markets.

California Institute of Technology
Summer Undergraduate Research Fellow — Jun 2023 – Aug 2023
Research on efficient Monte Carlo Tree Search in the context of online robotic decision making and planning in the Autonomous Robotics and Control Lab headed by Professor Soon-Jo Chung.

Ampfield
R&D Summer Intern — Jun 2022 – Apr 2023
Utilized High-Performance Computing and Stochastic Differential Equations for valuation of futures contract portfolios.

KTH Royal Institute of Technology
Teaching assistant — Aug 2022, Aug 2021
Held lectures and exercise sessions for beginning undergraduate students at KTH.

Allakando
Tutor/private mentor — Sep 2017 – Jun 2022

Private Tutoring
Tutor/private mentor — Oct 2016 – Oct 2023
Private tutoring in the subjects Mathematics, Physics, German and English.
Pupils from lower to upper secondary education.

Stockholm University: Department of Physics/AlbaNova
Work life experience — Oct 2016

QUALIFICATIONS

EY Data Case Event
Member of the winning team — Nov 2021

Scania Student Challenge 2020
Joint third place finalist — Dec 2020

Adjunkt Klas Ryrberg's scholarship trust
Scholarship/Grant — Jun 2020

"...for exceptional results in the Natural Sciences program, particularly in the natural sciences and mathematics, but also in the English and German languages."

Wallenberg Physics Contest
Sixth place, national team contest — Feb 2020

National Programming Olympiad
Finalist — 2019/2020

Molecular Frontiers
Received scholarship to partake — Dec 2019

Rays for Excellence
Project about machine learning — Jun 2019 – Jul 2019

Project titled "Diagnosing Pneumothorax in X-Ray Images Using Deep Learning" under guidance of Anna Broms, M.Sc in Mathematics and Joar Bagge, M.Sc in Mathematics at the Department of Mathematics of KTH Royal Institute of Technology. Won "Best Presentation" for the closing project talk. Project paper can be supplied on request as well as on LinkedIn.

Berzeliusdagarna
Received scholarship to partake — Jan 2019

EXTRACURRICULAR COURSES

Mathematics 3 - Abstract Algebra — Jun 2021 – Aug 2022

Standard course in abstract algebra. Summer course at Stockholm University.

Mathematics 1, Algebra — Jan 2020 – Jun 2020

Mathematics 1, Algebra, given by Stockholm University, first term of two-term course.

The Mathematics of Computers Sep 2019 – Jun 2020

Number systems, formal languages etc. Course at the Mathematical Circle of Stockholm organised by KTH Royal Institute of Technology in cooperation with Stockholm University.

Linear algebra for secondary school students Feb 2019 – Jun 2019

Introduction to linear algebra. Course at KTH Royal Institute of Technology.

Graph theory and map colouring Sep 2018 – Jun 2019

Introduction to graph theory incl. a derivation of the four colour map theorem. Course at the Mathematical Circle of Stockholm organised by KTH Royal Institute of Technology in cooperation with Stockholm University.

Geometric constructions Sep 2017 – May 2018

Euclidean geometry and construction. Course at the Mathematical Circle of Stockholm organised by KTH Royal Institute of Technology in cooperation with Stockholm University.

Leda Patrull Sep 2015

Youth leadership course at Scouternas Folkhögskola.
